

CORROSION SOLUTIONS

MANTL HAS PARTNERED WITH SOURCE SOLUTIONS TO BRING THE ADVANTAGES OF CORROSION MITIGATION PRODUCTS TO OUR COMPLETE PCP SYSTEMS

We have developed a simple solution that will mitigate corrosion and extend the run-time of your downhole equipment.

Sacrificial Anodes become the more active metal and corrode at a faster rate than the metals in the downhole equipment

CORROSION - MITIGATION

GENERAL ATTACK CORROSION
LOCALIZED CORROSION
GALVANIC CORROSION
ENVIRONMENTAL CORROSION
FRETTING CORROSION
FLOW-ASSISTED CORROSION
HIGH TEMPERATURE CORROSION
INTERGRANULAR CORROSION
